Subject: Urging Your Support for Sub. HB 189 Before the Spring Recess
Attachments: Eric_Bakken_Regis Corporation_Sub_HB_189_Letter_Of_Support_Signed.pdf; 2018_0316 OSA Ltr to All Ohio House Members Urging Support for Sub HB 189 - FINAL.pdf

Dear Ohio House members,

We are writing to ask for your **support** and **expeditious passage** of the **occupational licensure reforms** to Ohio's cosmetology industry contained in **Sub.HB 189** before the Spring recess. The announcement this week of more private cosmetology schools closing makes it more important than ever to pass the reforms contained in **Sub. HB 189**. **Six additional school closures** were announced bringing the total number to **28 closures since May 2015** (or around 30%). In addition, we have included a few items raised by opponents that we are willing to work on in the Senate if the bill is favorably passed off the House floor.

I've also attached a list of all public testimony o **HB 189**. In addition the **letters of support from smaller salon owners** around the state, we just received the attached letter of support from Regis Corp that has over 30 brands under its umbrella with hundreds of locations across all 88 counties.

Have a great weekend. Please let me know if you have any questions.

Best regards,

Tony

REGIS

March 15, 2018

To: All Ohio House of Representatives

From: Eric Bakken
EVP, President—Franchise

RE: Urging your support for Sub. HB 189

My name is Eric Bakken, and I serve as the Executive Vice President and President—Franchise for Regis Corporation. I'm writing to urge your support for Sub. HB 189.

Regis Corporation is a leader in beauty salons and cosmetology education. As of December 31, 2017, the we owned, operated, franchised or held ownership interests in over 8,800 locations worldwide. We also maintain an ownership interest in Empire Education Group in the U.S. Regis owns or franchises 386 salon locations in Ohio, amounting to over 2,000 stylists and managers in the state. We operate under several brands in all 88 counties throughout Ohio, including: Best Cuts, Borics Hair Care, Famous Hair, Fiesta Salons, First Choice Haircutters, Haircrafters, Mastercuts, Regis Salons, Roosters, Saturdays, SmartStyle, and Supercuts.

At Regis, we are deeply committed to providing our customers with the safest and highest quality experience in our salons. To achieve this, we ensure our stylists and managers are properly educated and licensed in accordance with state regulations. We also offer our team members continued education and training to refine their skills, keep on trend and to stay in tune with the latest sanitary protocols. However, our industry has become increasingly competitive, most of which is attributable to a shortage in skilled labor. That's why for over four years, Regis has supported a group called the Future of the Beauty Industry Coalition (FBIC) whose main purpose is to provide reasonable reforms to state cosmetology law using research and analytics from all 50 states.

The FBIC consists of cosmetologists, students, salon owners, manufacturers, distributors, and cosmetology schools. The FBIC values our industry's appreciation of safety and quality, and therefore has proposed Sub. HB 189 which modifies the existing law and reduces the Ohio license minimum hour requirements from 1,500 to 1,000, as opposed to a complete deregulation of the industry. In addition, Sub. HB 189 lays the groundwork for model occupational licensing reform legislation for the cosmetology industry in all 50 states and helps to eliminate a barrier of entry into our industry.

The minimum 1,500 hours state licensing requirement serves as a barrier of entry into the beauty industry. In addition, Ohio's reciprocity law requires a licensee to sit for an Ohio exam even though they may have passed another state's licensing exam a month or so before. This doesn't help our stylist be mobile in deciding where to work and live, especially near Ohio's boarding counties. Sub. HB 189 reduces the hours to 1,000 hours for a full cosmetology license and helps out of state licensees come to Ohio to work and raise a family.

For these reasons, I am writing on behalf of Regis Corporation in support of the Ohio Salon Association's proposed comprehensive reform package to Ohio's cosmetology laws contained in Sub. HB 189 (and the

REGIS
7201 Metro Boulevard | Minneapolis, MN 55439 | 952-947-7777

companion bill in the Ohio Senate, SB 129). This reform is a positive step for our industry, and I respectfully request this committee's support on the work being done here.

Thank you for your consideration and the opportunity to submit this letter in support of Sub. HB 189.

OSA

OHIO SALON ASSOCIATION

March 16, 2018

Dear Representative:

We are writing to ask for your **support** and **expeditious passage** of the **occupational licensure reforms** to Ohio's cosmetology industry contained in **Sub. HB 189** next Wednesday, March 21, 2018. The announcement this week of more private cosmetology schools closing makes it more important than ever to pass the reforms contained in **Sub. HB 189**. Six additional school closures were announced bringing the total number to 28 closures since May 2015 (around 30%). In addition, we have included a few items raised by opponents that we are willing to work on in the Senate if the bill is favorably passed off the House floor.

Sub. HB 189 will:

- 1) **Support Ohio's Attainment Goal 2025, that includes:**
 - a) **helping more Ohioans compete for quality jobs** that pay a family-sustaining wage and lead to career advancement;
 - b) **removing barriers to education and employment** for individuals;
 - c) **helping Ohio employers find the talent** they need to succeed and grow;
 - d) **providing effective and efficient job training aligned to in-demand occupations** and employer needs resulting in **workplace-valued credentials**; and
 - e) **assisting in achieving the attainment goal** of the Governor's Executive Workforce Board, Ohio Department of Education and Ohio Department of Higher Education to have 65% of Ohioans ages 25 to 65 achieve a credential/license or degree by 2025. (Ohioans are currently at 43% of that attainment goal.)
- 2) **Lower hours to reduce the barrier for women, men and minorities to enter the beauty industry.**

The bill:

 - a) supports the notion that government should only mandate the minimum number of hours necessary to ensure safe and sanitary cosmetology practices as a barrier to entry into the profession – **1,000 hours is the correct requirement** – though some believe this is still too many hours;
 - b) equalizes the government mandated hours between public and private schools. Public schools in Ohio **are already teaching at 1,000 hours** and producing graduates who are entering the workforce with similar graduation rates, licensure rates and earning potential;
 - c) maintains high training standards without mandating an additional 500 hours on private school students. A national study as well as salon owners indicate that **more time in school does not make the student more job ready**;
 - d) acknowledges that there are **currently more public students entering the profession at 1,000 hours** of training rather than private schools at 1,500 hours;
 - e) ensures private schools are still able to obtain federal funding for students at 1,000 hours, can require 500 additional hours and charge whatever they want for tuition – the question is whether students will be willing to pay for and attend such programs – the free market will decide; and,
 - f) creates an **apprenticeship option** for future cosmetology students to earn a wage while they learn about the beauty industry. Under today's 1,500-hour program students are forced to pay tuition and provide services to the public in school clinics without compensation for hundreds of hours.

3) Stop Ohio law from unfairly requiring private cosmetology education mandating 1,500 hours at the expense of students when public schools already teach at 1,000 hours. There is no risk to public safety if a cosmetologist attending a private school achieves 1,000 hours for a license just like the public school student does today. In Ohio today:

- Emergency Medical Technicians (EMT) attend 150 hours of training.
- Licensed Practical Nurses (LPNs) attend 1376 hours of training.
- Police officers attend 695 hours of training.
- Paramedics attend 800 hours of training.

4) Make Ohio a "**RECIPROCITY-IN**" state—our focus must be on job opportunities in Ohio. Many states do not require licensees to take any additional education or even an exam when seeking reciprocity after one to two years of practicing as was indicated by a recent LSC review. The bill:

- a) removes the requirement of taking exams in Ohio if already licensed in another state;
- b) removes the requirement that the standards in Ohio for obtaining the license the applicant seeks are substantially equal to the other state or country's requirements;
- c) allows licensees to enter the workforce sooner with less debt;
- d) permits work experience/hours to count towards licensing hours when seeking to transfer a license to another state;
- e) requires the Ohio Board to use a national exam which makes our licensees more marketable in other states; and,
- f) maintains high standards, but makes it easier to practice in Ohio than in most states.

Although private school opponents have refused to attend interested party meetings we have addressed several issues raised by them and have highlighted the changes below. These changes are in Sub. HB 189. The substitute bill:

- a) permits pre-graduate testing to help increase licensure rates;
- b) returns manicuring hours from 100 to 200;
- c) returns esthetics hours from 300 to 600;
- d) removes the 5-year experience requirement for instructors;
- e) removes the language increasing the surety bond from \$10,000 to \$100,000 for schools; and,
- f) requires salons and schools of cosmetology to work in partnership to establish the apprenticeship program.

As mentioned above, the OSA has been trying to address as many of the opponents concerns as possible throughout this legislative process. We are committed to working on the following issues raised by the opponents in the Senate if Sub. HB 189 passes out of the House:

Opponents concern: *Getting rid of the advanced license is deregulating our profession.*

- **OSA Response:** The advanced license doesn't provide students with marketable skills that garner a higher wage and is not recognized in other states. Since it was created a few years ago schools did not adapt and work to provide input on curriculum to make it valuable. Schools can still offer 1,500 hours' worth of classes or any other advanced classes they wish. There is no law preventing them from offering classes that exceed the minimum. And funding is available for up to 1,500 hours so they can get paid. The state should only legislate minimums for occupational licenses that are barriers to entry into a profession. In reality private schools combine the initial license at 1,500 hours and the advanced license at 300 hours and require students to attend and pay for an 1,800-hour program. This cannot be the case in the future.
- **OSA Compromise:** The OSA will support changing Sub. HB 189 in the Senate to preserve the Advance License for those licensees as of the effective date of the bill, so those individuals can indefinitely renew this license. This still provides any school the opportunity to create an Advanced

Certificate program, but such a program will not carry with it state mandated hours. Schools are free to provide cosmetology programs above the 1,000-hour requirement under Sub. HB 189 – the question is whether students will pay for the additional training and education – the free market will decide.

Opponents concern: *Natural Hair Styling license is valuable and should stay. It negatively affects ethnic populations to get rid of it including salon owners.*

- **OSA Response:** The first time OSA heard opposition to removing the Natural Hair Stylist license came on Wednesday, March 7th in the House Government Accountability and Oversight Committee hearing on Sub. HB 189.
- This license is not widely utilized—and it is quite burdensome at 450 hours of education to sit for the licensing exam. For instance, based on the Board's 2017 Annual Report there were 5 active and one new individuals with a natural hair stylist license, one active and one new individuals had a natural hair stylist instructor license, 34 active and 45 new individuals had an advanced natural hair stylist license, and there were 14 active and 4 newly licensed natural hair stylist salons. Compare this to 17,639 active and 2,708 new cosmetology licensees for the same period.
- **OSA compromise:** With that said, so long as the braiding registration stays in the law, we would compromise to allow the natural hair stylist license to stay in as well.

Opponents concern: *The way the definitions are in this bill make hair design the same as cosmetology at 800 hours.*

- **OSA Response:** The Ohio State Cosmetology and Barbering Board staff provided the language in the bill to clarify the practice of cosmetology which was included in the substitute bill.
 - Their intent was that cosmetology is defined as providing all the branches of cosmetology, and they believed the definition of cosmetology could not include cosmetology.
 - There has never been an intention of having a full cosmetology license 800-hour program as the opponents claim.
- **OSA compromise:** The OSA supports amending the final bill in the Senate to clarify and make clear that a full cosmetology license requires 1,000 hours, a hair design license requires 800 hours, an esthetics license requires 600 hours, a manicuring license requires 200 hours and a natural hair stylist license requires 450 hours.

The opponents should actually work with salon owners to address significant issues in the beauty industry, especially the fact that 28 private schools of cosmetology (or 30%) have abruptly closed their doors since May of 2015 and we expect more. These closures have required students to find alternate programs to finish their training very little to compensate them for these schools failing to help them become licensed and find employment in the beauty industry.

The Ohio Salon Association is focused on cosmetology student success, school success and addressing workforce issues for all salons and job providers in Ohio.

Thank you for your time and consideration. We have attached a list of business owners as well as state and national associations supporting HB 189 and SB 129.

Please feel free to contact our lobbyist, Tony Fiore, at afiore@keglerbrown.com or 614-462-5428 if you have any questions about this legislation.

Can Money Attract More Minorities into the Teaching Profession? – Brookings

- Many education policymakers and practitioners across the country recognize the need to recruit and retain more racial and ethnic minorities into the teaching profession. As we've previously discussed in our ongoing teacher diversity series, there is credible evidence that minority teachers can boost a range of minority student outcomes, yet minorities are underrepresented among the population of public school teachers

Equal Talents, Unequal Opportunities – Jack Kent Cooke Foundation

- Despite small signs of progress, state policies nationwide continue to fail to support the needs of high-ability students with financial need. Through educating the nation's youth, our schools have the potential to cultivate the talent of the next generation. Yet the vast majority of students achieving high levels of academic excellence come from upper-income, economically secure circumstances. Low-income students, who now make up over half of our public school population, are much less likely to achieve academic excellence even when demonstrating the potential to do so. These income-based "excellence gaps" appear in elementary school and continue through high school. In addition to examining individual state policies, this second

SCHOOL DISCIPLINE RACIAL DISPARITIES – *A new report issued by the U.S. Government Accountability Office (GAO) found that black students continue to be disciplined more often and more harshly than their white peers, often for similar infractions. The GAO is an independent, nonpartisan agency that works for Congress. The report was the first national governmental analysis to be completed since the Obama administration issued guidance in 2014 urging schools to examine the disproportionate rates at which black students were being punished. Critics of that guidance have questioned whether students of color suffer from unfair treatment under school discipline policies. U.S. Education Secretary Betsy DeVos met with supporters and critics of the Obama-era guidance this week as she considers whether to rescind the document.*

DeVos Meets With Supporters, Critics of Discipline Rules as GAO Says Racial Disparities Persist – EdWeek

K-12 EDUCATION: Discipline Disparities for Black Students, Boys, and Students with Disabilities – U.S. Government Accountability Office

- Black students, boys, and students with disabilities were disproportionately disciplined (e.g., suspensions and expulsions) in K-12 public schools, according to GAO's analysis of Department of Education (Education) national civil rights data for school year 2013-14, the most recent available. These disparities were widespread and persisted regardless of the type of disciplinary action, level of school poverty, or type of public school attended. For example, Black students accounted for 15.5 percent of all public school

students, but represented about 39 percent of students suspended from school—an overrepresentation of about 23 percentage points

Government Watchdog Finds Racial Bias in School Discipline – New York Times

- Black students continue to be disciplined at school more often and more harshly than their white peers, often for similar infractions, according to a new report by Congress's nonpartisan watchdog agency, which counters claims fueling the Trump administration's efforts to re-examine discipline policies of the Obama administration

OPINION

NAEP 2017: America's "Lost Decade" of educational progress
By Michael J. Petrilli
= A

As feared, the new results from the National Assessment of Educational Progress show that national trends remain mostly flat. Coming on the heels of some modest declines in 2015, the 2017 scores amount to more bleak news. It's now been almost a decade since we've seen strong growth in either reading or math, with the slight exception of eighth grade reading. There's no way to sugarcoat these scores; they are extremely disappointing. [Read more.](#)

NAEP's good news for high achievers: A decade of universal but uneven growth

By Brandon L. Wright

Average NAEP scores are flat almost everywhere and have been for nearly ten years. But lost in that disappointing decade of averages is a period of steady and unexpectedly universal progress for one set of students: high achievers. Not every top scorer benefited to the same degree? 4and that's an enduring and substantial problem—but benefit they all did. [Read more.](#)

NAEP scores are inexcusably stuck in the mud, but we can get them out

By Alexander B. Kress

= A

Given NAEP growth in the 1990s and early 2000s and the progress we still need to make, recent flat scores are inexcusable and unacceptable, argues a veteran of the accountability movement. Among his suggestions for correcting course are stronger accountability, more local control, better research-based practices, and higher quality standards and tests. [Read more.](#)

OCTOBER 2015

Heartbreak on NAEP

By Michael J. Petrilli

NAEP results for fourth and eighth grade reading and math are released every two years. This October 2015 essay analyzed data from that year and begins by stating, "Unfortunately, the rumors, predictions, and surmises were correct: Scores on the National Assessment of Educational Progress are mostly down or flat." Sound familiar? [Read more.](#)

IS AMERICA STILL A NATION AT RISK?

On this week's podcast, Bruno Manno, Senior Advisor to the Walton Family Foundation's K-12 Education Reform Initiative and a Trustee Emeritus at Fordham, joins Mike Petrilli and Checker Finn to discuss this week's NAEP results in the context of the thirty-fifth anniversary of *A Nation at Risk*. On the Research Minute, Amber Northern examines how accountability metrics related to student subgroups affect teacher turnover and attrition.

Facilitating better high school choice

By Robert Pondiscio

An experiment designed to enhance high school choice in New York City, which has over seven hundred schools and programs from which students can choose, offered simplified and customized lists of schools designed to help kids “navigate a complex high school choice process and access higher-performing schools.” The experiment led students to apply to schools

where their odds of admission were higher, and reduced the chances they would “match” to a school with a low graduation rate. [Read more.](#)

Do high school graduation standards align with college admissions requirements?

By Jessica Poiner

An increasing number of headline-grabbing graduation scandals have renewed the public’s interest in how students earn a high school diploma. A recent paper from the Center for American Progress adds to the discussion by examining high school graduation requirements in all fifty states, as well as the District of Columbia and Puerto Rico, to determine whether they are aligned with college admissions requirements and a variety of quality indicators. Overall, the authors find a “significant misalignment” between states’ high school and college systems. [Read more.](#)

Five takeaways from Ohio's 2017 NAEP results

By Aaron Churchill

The big takeaway from this week's 2017 NAEP scores is that student achievement is stuck in neutral across much of the nation. But there's more to unpack, especially in Ohio. The state, for example, outperforms the national average, but not by much, and it's competitive with nearby states. But Ohio's math achievement has been a mixed bag in recent years. [Read more.](#)

Moving to prosperity but leaving big questions behind

By Jeff Murray

The Move to PROSPER project is a new initiative by a consortium of organizations led by the Ohio State University to provide a path to stability to low-income single-parent households with one or more school age children—some of the least stable families in central Ohio. Due to its wide-ranging goals, its origin in city planning, and its long-term focus, the model's ambition far exceeds the typical work of social service providers. However, its very existence raises uncomfortable questions about the effectiveness of urban policies in meeting the broader needs of less advantaged families living in Columbus. [Read more.](#)

Louisiana provides parents a complete view of school quality—cradle to career

By Jessica Baghian

For nearly a decade, Louisiana has assigned letter grades to schools and school systems to focus educators on excellence for every child and to inform parents about school quality. But a recent survey indicated that just one in ten residents and one in seven public school parents could correctly identify their local school district's state-issued grade, writes the assistant superintendent for assessment, accountability, and analytics at the state's education department. So in 2017, Louisiana launched a first-of-its-kind online reporting system that better communicates how well schools and early childhood centers are supporting students. [Read more.](#)

NATION'S REPORT CARD RESULTS – *The latest results of the National Assessment of Educational Progress (NAEP), also known as The Nation's Report Card, were released this week finding most scores were relatively flat, continuing the trend of the past decade. Over 500,000 4th-and 8th-graders across the country took the test which was administered digitally for the first time. Nationally, the results were unchanged from 2015 in 4th grade reading, 4th grade math and 8th grade math. Eighth grade reading saw a one point gain. In Ohio, grade 4 math scores decreased by three points (244 to 241) since 2015 while reading scores held steady (225). The 8th grade math scores increased by three points (285 to 288) and reading scores increased by two points (266 to 268). NAEP is the largest nationally representative and continuing assessment of what America's students know and can do in various subject areas.*

A 'Lost Decade' for Academic Progress? NAEP Scores Remain Flat Amid Signs of a Widening Gap Between Highest and Lowest Performers – The 74

- Test scores released Tuesday for the National Assessment of Educational Progress (NAEP) continued a decade-long trend of stasis, with small improvements measured only for performance in eighth-grade reading. While states with disparate academic approaches have made some strides over the past few years — notably Florida and California — national averages have varied only slightly, despite billions of dollars invested to improve performance at the national, state, and local levels

Nation's Report Card: Achievement Flattens as Gaps Widen Between High and Low Performers – EdWeek

- A nationally representative group of nearly 585,000 4th- and 8th-graders took the National Assessment of Educational Progress in 2017, the first time the tests were administered digitally. The results, released Tuesday, show no

change at all for 4th grade in either subject or for 8th graders in math since the tests were last given in 2015. Eighth graders on average made only a 1-point gain in reading, to 267 on the NAEP's 500-point scale

Ohio Reading, Math Scores Unchanged on National Test – Columbus Dispatch

- U.S. eighth-graders in 2017 were slightly better readers than the eighth-graders of 2015. But other than that bright spot, national test scores on reading and mat haven't budged in a few years
